

HOW TO USE THE REFERRAL SYSTEM

Impressio appreciates all of our users, and we also want to help them spread the word and grow with us. That's why we have an amazing referral program, where you can earn passive income just by recommending our platform to anyone – friends, family, associates, acquaintances – literally anyone across the world! Here is the quick and easy way that you can empower yourself financially just by promoting our platform. After clicking on the “Referral Page” tab on the main page, you will be brought to this screen:

REFERRAL LIST

If you still didn't join our Referral Program, you probably wasted lots of time and lost a spectacular amount of money. Invite your friends, so you can receive weighty percents from their operations, as thousands of users have already done!

Here, your referral information is neatly documented, and you can see the total number of referrals you have made, in addition to the exact commission that you have earned. This way, you can directly view the progress that you have made, and the income that you have earned, simply by promoting our platform.

Motivate them to be active users - later they will thank you for their smart investments, while you will be getting more and more percents from the operations they fulfill. There's no limits for invitations - popularize online investment among your friends, family and co-workers to earn money from cryptocurrency together!

Directly underneath, you have access to your referral link, which you are free to copy and paste wherever you deem most effective. There is absolutely no limit to the invitations that you make, and therefore, to the passive income that you earn! Feel free to utilize social media or other strategies to get the word out to family and friends about how they can achieve financial independence through Impressio – because the sky is the limit!

For those who want to go to the next level, why not advertise your Impressio link with a banner? This is great for users who have a blog, or access to bloggers, for example. You can choose the size of the banner to fit for your exact needs, as well. You can choose between larger and smaller banners, and whether you want the banner to be vertical or horizontal, as well. This can be done right underneath the “My Link” section.
